

ETERNAL WISDOM

MANUAL TO LIFE

WISDOM INNER MANAGEMENT

THE GRANDEUR OF LIFE

Life thrives on the Principles of Action. Every action has immense potential. We are born to succeed. Not understanding this, one acts impulsively, constantly worrying and reacting. Thereby, one's actions become impoverished. This causes immense stress & strain which saps one's energy. Despite having the capability, one does not achieve desired goals.

Such disjointed individual actions compound into lack of synergy resulting in sub-optimal performance of the organization. An atmosphere of disgruntlement and negativity pervades, affects work-balance and damages team work. The organization does not achieve its objectives.

This presentation gives a **blueprint of the Eternal Wisdom**.
By following these principles, one **raises one's inner potential and achieves excellence through Dynamism of Action**.
Such actions **resonate throughout** and the organization exceeds excellence.

ETERNAL WISDOM PROGRAM

Science presents the external laws which govern the world. Wisdom deals with the internal laws which govern the individual.

“Science is organised knowledge, Wisdom is Organised Life”

The changing world poses several challenges. How does one cope?

We cannot change the world but we can adapt to face its complexities.

We need to strengthen ourselves with Wisdom to convert every adversity into an opportunity and achieve our full potential.

Is it possible to remain balanced and composed in the face of adversity?

We always seem to want something more.
Is it wrong to be ambitious?

What are the elements which dilute the effectiveness of one's action? How do we **ensure that one's actions resonate with the team?**

Why are our joys elusive and temporary? Why do we remain discontented?

Does work tire you or enthuse you?

Does one achieve happiness and success only at the cost of others? Is there a way to accommodate others without sacrificing one's own interest? And who makes it happen?

We perceive Peace and Prosperity as an either – or alternative. Humanity is caught in an **unending cycle of *Rajas*** (desire-driven action leading to agitation) and ***Tamas*** (inaction to achieve calmness at the cost of productivity).

How can organisations achieve success with peace and harmony ?

The key is to **convert impoverished actions of individuals into collective inspired actions of the entire team.**

An individual's transformation is essential to impact both personal life and the fortunes of the organisation. How do we ensure that one's various roles are not at cross-purposes with organisational priorities and bring about work-life balance?

**ETERNAL WISDOM HAS ALL THE SOLUTIONS.
NOT JUST FOR INDIVIDUALS... FOR ORGANISATIONS TOO.**

THE GURU

Vinayji, an established thinker, philosopher and self-management expert, has immersed himself in the study, research and practice of Vedanta, since the age of 16. Over the past 30 years, he has inspired people, both in India and abroad, to commit to higher ideals and transform themselves to lead a more purposeful and fulfilling life.

His in-depth understanding, inspiring oration and lucid explanation translates complex Vedic knowledge into valuable lessons in applied philosophy. His appeal lies in the presentation of these truths with absolute precision, effortless ease and consummate wit.

Vinayji cross references concepts from various scriptures and a range of western and oriental philosophers and litterateurs. In his uniquely interactive style, he cements the learning with practical tips for day to day living.

He founded Wisdom Foundation, dedicated to spreading the glorious truths of Sanatana Dharma – the Eternal Principles of Life and Living.

His tireless work expresses through Wisdom Public Lectures, Study Classes, Workshops, Corporate Seminars, Educational Modules, Youth interactions and Retreats. Vinayji's programs continue to enrich and impact people to be happy personally and successful professionally.

An avid athlete, he participates in marathons, besides a regular schedule of yoga, cycling and badminton. His love for nature and his passion for the outdoors has taken him on several mountain treks including the famous Annapurna Base Camp in Nepal.

Vinayji stands as a testimony to dynamic living of higher values. In the words of one of his students, "...

“

“... Vinayji ... is one of the most knowledgeable and committed Vedanta exponents ... who not just teaches, talks and lectures on it, but truly lives it ...”
